

WHY

Vision & Mission

Vision

GEZE – Number 1 when it comes to customer confidence in products, system solutions and services for doors and windows.

Mission

Our products, system solutions and services make a significant contribution to the realization of liveable buildings.

What is our purpose and why are we doing what we do?

HOW

Values

Integral

With our industry and technical expertise we are connecting stakeholders involved in the building life-cycle to gain superior results for our clients. Thus we are a crucial part to the success of larger and smaller projects concerning and within buildings.

Progressive

We get into projects at an early stage and stay in longer – to drive buildings development. For our customers we are a challenging partner fighting for innovative and efficient solutions. We develop opportunities by expanding into new markets thus becoming a global player.

Agil

We are a learning organism developing our own potential first. As a family business we are independent and flexible enough to adapt and meet our customer needs. We use the momentum to realise ground breaking developments.

How will we be perceived and which values characterise our behaviour?

WHAT

Benefits & Reason why's

Inspiration

We connect the stakeholders involved in the project and building development into a powerful network.

Convenience

We serve the entire object and project cycle end to end – starting with ideation up to the integrated commissioning of the building.

Safety

We bring together deep expertise for industries and technology with our clients very specific needs – talking from professional to professional.

Freedom

We provide prime services and cover our clients back by taking on critical parts of their planning tasks and offer excellent products and solutions.

What benefits do we provide and why?
